RISO is pleased to announce that the new GR Series Color Guide and new TIFF line art disks are now available.

The GR Series Color Guide features five separate pages of RISO ink colors organized by color families. Each color is printed as a solid, shade, fine line type, photograph, and line art. In addition, all colors are identified by their nearest PANTONE color match. The color pages are packaged in a pocket folder with extra room for a business card or note to a prospective customer.

All outstanding orders for the RISO Color Chart (Item No. 1229) will be fulfilled automatically with the new GR Series Color Guide.

The new TIFF line art disks feature line drawings of several Risograph models and accessories (see examples) and are available in both PC and Mac format.

The GR Series Color Guide is available as Item No. 1489 (package of 25 for $10) on the Marketing Materials Order Form. The TIFF Line Art Disk is available for $5 (Item No. 1502 for PC version; Item No. 1503 for Mac version). Call Customer Service today at 800-995-RISO to place your order.
